ENERGY
FOR YOU

renovatio
SOLAR

RENOVATIO SOLAR offers integrated solutions for the installation and acquisition of solar panels for houses and offices. With **more than 150 MW installed**, the company actively contributes to the reduction of CO₂ emissions and has the necessary experience to provide quality services. **Singureni's photovoltaic park**, finalized in 2010, was thought of as a pilot project, but also as a showroom for what the company can do, paving the way for a fast-growing industry.

renovatio
ASSET MANAGEMENT

RENOVATIO ASSET MANAGEMENT (RAM) deals with the management and operation of wind and photovoltaic parks, with approximately 50 MW of solar, wind and hydro power. **RAM** provides both innovative technical services (maintenance and regular inspections of transformer stations and inverters, verification and reporting of energy quality by the inverter) as well as **reporting and management services** (production forecast, green certificates trading, monthly production reports, reports legal requirements).

renovatio
MOBILITY

RENOVATIO MOBILITY, through the **E-Charge network**, is **the first network based on fast-load solutions dedicated to all electric vehicle users in Romania**. Being aware of the innovations in the field, the company provides consultancy for charging stations, equipment supply, AFM financing, complete systems design, business or residential installations and rental / vehicle purchase consulting. With **26 active stations** dedicated to users today, **the network will have at least 50 Fast Charge charging points**, providing electrical mobility in major cities and across pan-European corridors crossing our country.

MISSION

The **RENOVATIO GROUP's** mission is to reduce carbon emissions and pollution, increasing energy efficiency and resource efficiency and preventing loss of biodiversity and ecosystem services through **INNOVATIVE AND INTEGRATED SOLUTIONS.**

VALUES

Part of **RENOVATIO GROUP**, which covers areas such as: site identification, project development, operation and management of wind and photovoltaic parks, **RENOVATIO TRADING** completes the overall integrated business strategy, playing a key role in the energy value chain.

The Group, through its companies, aims at economic development through related activities of green energy production and consumption, which do not pollute.

A photograph of a single purple flower in a field of green grass. The background is blurred, creating a bokeh effect with soft, out-of-focus light spots. The flower is the central focus, with its stem and leaves visible.

A green economy can be thought of as a low-carbon economy by making efficient and sustainable use of resources.

HOW?

Through strategic partnerships with energy companies such as **EDP RENOVAVEIS** - one of Europe's largest wind energy producers, we have developed and managed wind and photovoltaic projects totaling over

 **1000 MW**,
respectively

 **100 MW**.

The energy provided by RENOVATIO TRADING is 63.95% green, but we can also provide our customers 100% green energy packages.

COMPETENCES

Having considerable industry knowledge and experience in the field, we have the means to provide every service related to energy supply and trade. We use our competences to offer to our clients electricity and gas at competitive prices, reliable and high qualitative services. In the end, we simplify and streamline the whole energy and gas acquisition process for our clients.

The background of the page is a large, abstract image featuring vibrant, blurred light trails in shades of orange, red, and blue, creating a sense of motion and energy. The trails appear to be part of a complex, possibly industrial or technological, structure.

True pioneers in the renewable energy industry and electric mobility, the companies from RENOVATIO GROUP are present in Columbia, Poland, Portugal, Bulgaria, Italy and Romania.

WE BUY ELECTRICITY AND GAS

We make it our business to identify and secure affordable energy and gas sources for our clients. That is why we are constantly on the look out to diversify our portfolio. Our team has extensive experience in research, identification and selection of reliable and price competitive energy and gas suppliers.

The background of the page is a dark, abstract image featuring several large, overlapping, curved shapes that resemble stylized leaves or energy waves. These shapes are rendered in shades of grey and white, with a glowing red energy-like pattern at their base, suggesting a dynamic and modern energy theme.

Although **conventional energy still holds an important share on the market**, RENOVATIO TRADING is making its best efforts to increase the percentage of renewables in the energy traded.

WE SELL ELECTRICITY AND GAS

In today's demanding, rapidly changing energy market place, it is a challenge for everyone to find the balance between maximizing revenues and minimizing risks. The same applies to minimizing costs and maximizing profit for energy consumers and beneficiaries.

A photograph of a woman with long dark hair, wearing a dark top, looking thoughtfully to the side. She is wearing a string of warm white string lights around her head and neck. The background is a blurred cityscape at night with bokeh lights.

Because the company has established long-term commercial relationships with all the important producers on the market, **we have the flexibility and expertise to secure stable, competitive energy sources for our clients.**

BENEFITS TO BE RENOVATIO TRADING CLIENT

With the liberalization of the electricity and gas market, switching the supplier has become a facility accessible to all consumers, irrespective of their legal entity or the amount consumed.

TRADING

ENERGY
FOR YOU

BENEFITS:

- ▶ **You pay less:** low costs due to the ongoing negotiations for the purchase of electricity and the fact that we are also producers of renewable energy;
- ▶ **The energy consumed is 63.95% green** (out of the total supplied);
- ▶ **Receive customized packages:** Our sales agents adapt the standard supply according to your consumption profile, the timeframe in which it takes place and the quantity;
- ▶ **You have modern means of payment.**

CHANGING THE ELECTRIC POWER SUPPLIER IS SIMPLE AND FREE:

- ▶ **We are dealing with formalities;**
- ▶ **No approval is required.** All you have to do is ask for the termination of the current contract;
- ▶ **There is no need to install another electricity grid** or change the meter.

THEY CHOSE RENOVATIO TRADING

The client portfolio of RENOVATIO TRADING consists of industrial and corporate consumers, of various sizes, coming from multiple fields of activity.
